## *PLEASE LIST MAJOR ACTIVITIES SINCE LAST REPORT:*

1) Committee has really been focused on determining what direction to move and how we can set concrete obtainable action items. Also have been discussing the new areas of responsibilities the COC has given to the committee.

2) Committee is working to develop a comprehensive list of housing stock for both HUD funded and non-profit housing including: Emergency Shelter Beds, Transitional Housing Beds, Permanent Supportive Housing and Permanent Affordable Housing. It is out view unless we have a good handle on the stock we don't know where our real deficits lie and how we can maximize the COC's efforts to address these.

3) We are focusing heavily on dealing with the Housing Element. How do we truly address housing affordability and availability in the short, medium and long terms.

## *QUESTIONS, RECOMMENDATIONS AND/OR SUGGESTIONS:*

1) Changing Committee Name to Housing and Sustainability Committee

2) Hold a Housing Element, Affordability and Availability Discussion with stakeholders.
