HMIS Data Collection – HUD Rapid Rehousing Supplemental Form

Collection of residential move-in date information will allow RRH projects to differentiate between clients who are in permanent housing (PH) and those that are waiting for a housing placement. If the client is not in PH as of the entry date, the residential move-in date should be captured using this form at the time of any entry into PH prior to project exit and the record must be edited in HMIS to reflect the appropriate residential move in date.

Respond to the following questions for all household members—each adult and child. A separate form should be included for each household member.
